

# FlexBoard® Edge Protection

## Conforms to any shape, fits any size!

FlexBoard® is a flexible edge protection designed to protect curved, round, and irregularly-shaped products by conforming to their edges to ensure the material beneath does not get damaged during shipping and storage.

- Constructed from durable, laminated paperboard
- Notched every 3" to allow conformity to almost any shape as well as a convenient guide for cutting and measuring
- Especially useful in protecting coiled and spooled materials, rounded furniture and windows, or any curved product from strapping and shipping damage
- Available in lengths from 72" to 288"
- Calipers range from .120" to .180" for OD FlexBoard® and .140" to .225" for ID FlexBoard®
- Leg length configurations are: 2"x 2"; 2.5"x 2.5"; 2"x 4"; 3"x 3" and 4"x 4"
