

PerfBoard™

The perfect fit for any application – in a SNAP

Create the ideal-height edge protection in a snap with the perforated convenience of PerfBoard™.

Perforated protection that fits your job, budget and warehouse space

- Perforated legs provide easy layer separation
- Standard leg lengths up to 4" x 4" with custom sizes available; calipers to .160
- Variable perforated lengths available
- Sections can be quickly portioned by hand or by machine
- Safe for partial shipments and irregular-sized loads
- Save warehouse space by stocking one SKU for multiple lengths
- Designed for use with automated pallet assembly systems
- Can be custom-printed: add your logo, message or instructions
- Recyclable and environmentally friendly

PerfBoard provides protection and unitizing with the added convenience of perforated legs for easy layer separation

Sections can be quickly portioned by hand
