

GREAT SERVICE. GREAT RELIABILITY. GREAT SOLUTIONS.

VERSATILITY

Applies to the inside and/or outside of the package

PROTECTION

Protects the integrity of corrugate boxes by reinforcing corners and edges

CUSTOM FIT

To protect the weight and dimensions of your product and package

APPLICATION

Remove the release liner to expose adhesive and position on the box

The Lexani box is placed inside a corrugate box and sealed for delivery to Tesla car owners.

MATERIAL

Made from 100% recycled paperboard and is 100% recyclable

QuikStik® edge protection is easily applied to the outside of Lexani corrugate boxes.

EFFICIENCY

Lightweight, easy to apply and remove

Laminations® Helps Lexani Reduce Damage to Wheel Rims for Tesla Vehicles

THE CHALLENGE

Lexani Wheels, a custom wheel manufacturer for luxury vehicles, recognized a need for a packaging solution that would provide additional protection for Lexani wheel rims for Tesla models. To maintain high levels of customer satisfaction, it was important for Lexani to find a solution to ensure its wheel rims would arrive in flawless condition.

THE BOTTOM LINE

Lexani reduced damage claims on their products, increased customer satisfaction and saved 17% after their packaging supplier, OWT Automotive Fulfillment, switched from using molded pulp inserts to Laminations QuikStik edge protection on the inside and outside of the package. Lexani wheel rims now arrive to Tesla owners in pristine condition, thanks to QuikStick.
