

PolyCoated

All-Purpose Coating Resists Water, Oil and Grease

- Guards against abrasion, scratches and dents that occur during transportation and handling
- Special coating prevents the absorption of grease into the paper
- Print options available for non-coated side
- Coating can be applied to all standard VBoard and U-Shapes
- Available in standard widths, caliper, and finished lengths

HydroShield[™]

VBoard[®] with a Moisture-Resistant Coating

- Ideal for protecting and stabilizing pallets of produce and perishable foods
- Repulpable coating means HydroShield[™] is 100% recyclable
- Standard and custom print options available
- Available in standard widths, caliper, and finished lengths

HydroShield[™] resists water and high humidity, making it the perfect edge protection solution for shipping and storing produce.

ScuffShield[™]

Protects Delicate Finishes During Shipping and Storage

- Protect delicate finishes against scratches, abrasion, nicks and dents
- Ideal for use in shipping and storing furniture, appliances, glass, plastic and other products with surfaces that can easily be damaged
- Repulpable coating means ScuffShield[™] is 100% recyclable
- Can be printed with your company's logo or message
- Coating can be applied to all standard VBoard and U-Shapes
- Available in standard widths, caliper, and finished lengths

ScuffShield[™] safely protects delicate surfaces from paper fibers that can cause damage during shipping, handling and storage
