

# Laminations® Makes Shipping More Efficient and Affordable

## THE CHALLENGE

A full-service manufacturer of chimney parts were shipping their products in wooden crates which were expensive, time consuming to package, and hard to dispose of.

## THE SOLUTION

### STRENGTH

Holds hundreds to thousands of pounds

### EFFICIENCY

Lightweight and easy to store, assemble and remove

### MATERIAL

Made from 100% recycled paperboard and is 100% recyclable

### CUSTOM-FIT

Custom-fit to protect products of almost any size, shape, or weight

## THE BOTTOM LINE

Laminations helped them win by developing a VBoard® and corrugate solution. The manufacturer was able reduce packaging costs, speed up their process, and maintain high customer satisfaction with a solution that is 100% recyclable, making it easy to dispose of.

### BEFORE

Before Laminations® VBoard® solution the manufacturer shipped chimney components using wood crates
