

FlexBoard®

Conforms to any shape, fits any size

FlexBoard® is a flexible edge protection designed to protect curved, round, and irregularly-shaped products by conforming to their edges to ensure the material beneath does not get damaged during shipping and storage.

- Constructed from durable, laminated paperboard
- Notched every 4" to allow conformity to almost any shape as well as a convenient guide for cutting and measuring
- Useful in protecting coiled and spooled materials, rounded furniture and windows, or any curved product from strapping and shipping damage
- Available in lengths from 72" to 288"
- Calipers range from 0.120" to 0.180" for OD FlexBoard and 0.140" to 0.225" for ID FlexBoard
- Leg length configurations are: 2"x2"; 2.5"x2.5"; 2"x4"; 3"x3"; 4"x4"
